

Council of the Heads  
of Built Environment

**12 March 2025 from 13:00-14:00**

## **Sterling Academic Access Program: Empowering the Next Generation of Estimation Professionals"**

Dear Heads and Colleagues,

CHOBE is delighted to invite you to another of our Webinar presentations for 2025. Professor Andrew Langridge from Sterling DCS will deliver the presentation, and we hope you can attend. Please forward this invitation to anyone you think may be interested.

### **What this webinar will cover:**

The webinar will discuss how Sterling DCS supports academics with its unique cost and carbon estimating platform and explore how Sterling DCS is working with universities and colleges to prepare students for the modern workplace.

The meeting will also provide information on how to get started with the academic access program.

### **About the presenter: Professor Andrew Langridge**

Andrew Langridge is a respected estimating professional with expertise in enhancing organisational performance and profitability.

As a director of Sterling DCS Limited, Andrew leads a team that offers cost and carbon forecasting and estimation solutions to organisations across various built environment sectors, ranging from the UK Government infrastructure projects to small, specialised quantity surveying practices.

Andrew also supports the profession by bringing together industry, professional bodies, and academia. He is a Visiting Professor at the University of Bath, a Visiting Fellow at Cranfield University, and a Fellow of the Association of Cost Engineers (ACostE).

### **How to join the meeting:**

The webinar will be delivered via Teams. To reserve a place, please email [info@chobe.org.uk](mailto:info@chobe.org.uk)
