The Evolution of Learning

The Bigger Picture

Where we are now

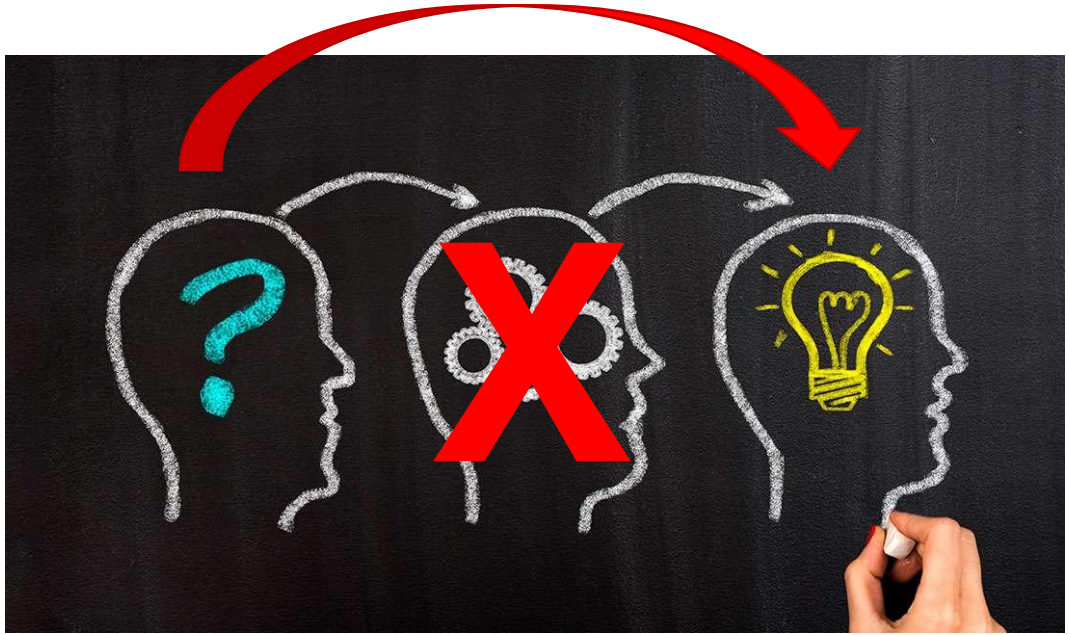

- NBS survey shows 42% in Built Environment use AI regularly and 23% will do so soon…
  - But its more about the age divide (sort of)

- Students are not just digital natives – they are AI infused!
  - Although this digital use is AI focused and not IT competence

- The emerging imbalance of AI knowledge and activity
  - Proactive vs Reactive

- Cognitive Surrender (!)

Where we are now
